EXPERIENCE

04/2023 - 07/2025

Technical Writer, *Trenika Technologies Private Limited*

- Created and maintained user-centric documentation for the Quaero360 Analytics platform, including user guides, release notes, training materials, and FAQs.
- Collaborated with product managers, developers, QA engineers, and UX designers to gather insights and understand new features, workflows, and technical implementations.
- Translated complex data workflows, KPIs, and life sciences analytics features into clear, accessible content, in collaboration with data analysts, developers, and product managers.
- Created user onboarding content, training decks, quick reference guides, and e-learning materials tailored for both end users and administrators.
- Utilized tools such as Oxygen XML Editor and SharePoint for content authoring and publishing.
- Ensured documentation aligned with Quaero360 style guide.
- Ensured all documentation complied with relevant regulations, safeguarding sensitive client and market data.
- Designed and developed manuals, slide decks, and scripts for workshops, onboarding sessions, and online training modules.
- Ensured content accuracy and consistency across all projects on the platform, and standardized documentation practices.
- Collaborated with global teams across different time zones to coordinate reviews and knowledge-sharing sessions.
- Collected and analyzed user feedback and platform metrics to iteratively improve documentation usability and relevance.

- Proofread and peer-reviewed content to ensure accuracy, completeness, and compliance with documentation standards.
- Delivered customized documentation and content solutions for the F&B industry. Ensured clarity, engagement, and alignment with brand identity.
- Created compelling captions, posts, and stories for social media platforms, such as Instagram and Facebook.
- Maintained a consistent brand voice while promoting specials, events, and new menu items.
- Authored blog posts on food trends, behind-the-scenes stories, seasonal menus, and chef interviews.
- Drafted professional responses to online customer reviews and feedback to enhance brand reputation.

12/2020 - 03/2023

Associate Technical Writer, *Trenika Technologies Private Limited*

- Authored comprehensive and clear support materials such as user guides, release notes, and help content for various clients.
- Tracked updates across product versions, ensuring documentation reflected current functionality and deprecated features.
- Enhanced content quality through iterative feedback processes.
- Created and maintained user manuals, technical guides, and installation instructions for various clients.
- Developed training materials, FAQs, and troubleshooting guides to support end users and administrators.
- Collaborated with developers, business analysts, QA, and product owners to gather and understand functional and technical requirements.
- Maintained up-to-date documentation in alignment with new feature releases and updates, ensuring clarity and consistency across all content.
