- **Nov' 19 to Dec' 19:** Updated website content for an electronic product design company
- **Aug' 12 to Sep' 12:** Edited content for WCED (Wadhvani Centre for Entrepreneurship Development) of ISB (Indian School of Business), Hyderabad
- **Apr' 11 to Nov' 11:** Edited articles, error messages, and survey forms for ISEA (Information Security Education and Awareness) team of CDAC (Centre for Development of Advanced Computing)
- **Apr ' 07 to Nov ' 09:** Created user manuals for Redpine Signals, Hyderabad
- **Jan' 05 till date:** Created and edited CVs, SOPs (statement of purpose), and LORs (letters of recommendation) for students applying to MS and MBA programs at US universities
- **Jan' 05 till date:** Reviewed project theses, synopses, and papers of M. Tech, MBA, and doctoral students

2) Jan' 05 to Aug' 19: Sr. Tech. Writer with Cyient Limited, Hyderabad: (retired from service on attaining the age of 60, the official age for retirement)

Cyient is a global provider of engineering solutions. I was part of a 15-member bidding team of the GIS (Geographical Information Systems) vertical consisting of 6000+ members.

- Created, edited, and reviewed proposals (about 200 per year) along with all the related queries and clarifications

- Created, edited, and reviewed CVs (about 500 per year), as part of proposals, or for onsite deployments
- Provided responses to RFEs from the US consulate, resulting in successful defense of work permit visa applications of several Cyient resources
- Created, edited, and reviewed various other documents including capability documents, design documents, case studies, presentations, white papers, press releases, user manuals (for in-house tools), and training materials
- Documentation support resulting in sign up of several major projects
- Document support resulting in the award of visas (B1, H1, and L1) to several Cyient resources

3) Dec' 02 to Jan' 05: Technical Writer with Solix Technologies, Secunderabad:

Solix is a leading software company that provides end-to-end solutions for enterprise applications. I worked on Digiprise, the web-enabled ERP and CRM solution which was developed using SQL Server database and ASP.

- Created user manuals and online help comprising of Help, FAQs, Index, Contents, Search, and Glossary using RoboHelp X3
- Supported research, conceptualization, and testing (functional and usability) aspects of the product
- Created and edited content for presentations, white papers, brochures, product tours, press releases, newsletters, case studies, and the website

4) June' 02 - Dec' 02: Technical Writer with San Marina Infotech, Hyderabad:

San Marina is in the business of custom-built software solutions. I worked on the Point-of-Sale software which was developed using MySQL and Java Swing.

- Created user manuals and online help using MS Word and MS FrontPage
- Supported research, conceptualization, and testing (functional and usability) aspects of the product

Other experiences:

1) Sep' 97 – May' 02: CRM/ERP--related training:

- Learnt SAP R/3 and Siebel CRM, and worked as a faculty with a training institute
- Worked with Zeus Corporate Services, Hyderabad in functional consultancy and doc support for a team developing a healthcare ERP solution

2) June' 81 – Aug' 97: Sales and marketing roles with leading engineering companies:

- Started as a Marketing Engineer with Crompton Greaves and rose to the rank of Product Manager with Bajaj Electricals
- Handled diverse customers including dealers, industries, consultants, OEMs, projects, and government organizations
- Worked on publicity, promotion, advertising, market research, and MIS functions
- Handled legal, commercial, and admin issues related to the branch in addition to sales and profit targets
- Acquired exposure to ISO 9000 quality systems and underwent several quality audits

Countries worked in:

Malaysia and India
