Projects:

1) **Title** : IRISS Portico

Technologies : Ruby-2.3.1, Rails 4.2.7, MySql and Soap UI

Project Description: IRISS Portico is the solution to the challenges faced by travel management companies (TMC). Low cost airlines (LCC) are do not participate in the GDS content. But using this we can sell LCC flights such as 6E, SG and G8. We integrated seamlessly all non GDS content such on to the standard GDS screen. Agent does not need to learn new GDS commands. When standard GDS commands will entered, IRISS Portico magically blend GDS and non LCC airline content on GDS screen. Up to 90% less time taken to view, book, cancel, exchange and invoice LCC tickets.

Role: Back End Developer

Responsibilities:

- Providing client support and implementing new requirements which provided by airline API.
- Interact with clients understanding their business and applying in our end.
- Involved in build and deploy the application in Dev, QA and Production environment.
- Upgraded the code from ruby-1.8.7 to 2.3.1 and rails2.3.5 to 4.2.7.

2) **Title** : Portico Admin

Technologies : Ruby-2.4.1, Rails 5.1.2, HTML5, CSS, JavaScript and jQuery.

Project Description: Portico admin is a web application which is used by our clients to get all it's flight booking details as well as it's terminal details. It is mainly the admin application as by its name.

Role: Full Stack Developer.

Responsibilities:

- Database and UI Design.
- Implemented based on client requirement.

3) **Title** : IRISS Simplify

Technologies : Ruby-2.4.1, Rails 5.1.2, HTML5, CSS, jQuery and Java Script

Project Description: IRISS SimpliFly is a corporate travel management product. The product places the corporate travel manager in complete control without having to depend on travel agents, travel management companies or travel consultants for information, fare/schedule quotes and ticket issue. IRISS SimpliFly is different from other corporate booking tools which offer only travel policy management, travel authorization and ticketing.

Role: Full Stack Developer.

Responsibilities:

- Database and UI Design.
- Implemented Travel Policy Management Module.

Other Works:

- Implemented CCAvenue Payment gateway integration.
- Migrated Java Application into Ruby on Rails.
