

LIKITHA T

LEAD SOFTWARE ENGINEER

PROFILE

Likitha, with 7+ years of experience, I am passionate about writing clean, efficient, and accessible code within a functional framework. I am dedicated to the complete development lifecycle and prioritize maintaining high code quality and creating bug-free applications. As a proactive leader, I excel in identifying opportunities for application development and have a proven track record of designing and developing custom web applications to meet specific client needs.

SKILLS & EXPERTIZE

- Ruby on Rails in UNIX/LINUX
- C#, ASP.NET
- SQL, PostgreSQL, MongoDB
- Object-Oriented Programming (OOP)
- RESTful APIs
- Version Control - GITHUB
- Test-Driven Development Advocate
- Agile (Scrum, Sprint planning)
- Redis Cache Server, Elasticsearch
- Jenkins, Postman, Sidekiq
- AWS Proficiency
- Implementing Security Measures
- Vulnerability Management

AWARDS

- | | BUDS | N' | BUGS | RUNNER-UP |
|------|---|----|------|-----------|
| 2018 | FULLSTOP' – HACKATHON '18
Know Your Case – Been a web spider for Web Scraping | | | |
| 2019 | BEST PERFORMER - MAGIC BOX
AWARD QUARTER- 2019 | | | |

PROJECTS

- | | WEB APPLICATION OPTIMIZATION |
|--------|---|
| 2016 - | USING |
| 2017 | EAGER LOADING AND KEY-VALUE
Reducing sum of SQL queries in order to escalate recital (performance) of the application & are optimized for storing lots of small values & can be read faster because of on-demand loading. |

WORK EXPERIENCE

VAKILSEARCH, CHENNAI JULY 2017 – JULY 2024

INCORP ASIA

ROR – ASP.NET – C# – SQL – ES – Telerik – PostgreSQL

www.incorp.asia

Led a dedicated team in the maintenance and advancement of software solutions, driving innovation and development. Pioneered the integration of new features, with a strong focus on fortifying security, resolving vulnerabilities, and implementing robust encryption protocols. Orchestrated the deployment of backend services for ticketing systems, significantly boosting system efficiency and performance. Oversaw the seamless migration of incumbent accounting software to the Zoho platform.

LIBRA – DIGITAL PRACTICE MANAGEMENT SYSTEM

ROR - JS - JQuery -Postgresql -ES –MongoDB – Redis - AWS

www.libra.lawyer

Directed full-cycle development of a scalable application, steering architecture, implementation, and optimization efforts. Led a team in crafting automated scheduling, client, document, and invoice management solutions utilizing caching technology. Integrated various payment methods and engineered a flexible roles and permissions engine to accommodate customizable pricing structures. Managed product migration and upgraded platform infrastructures. Engineered and integrated calendar-based events modules, leveraging third-party APIs to enhance functionality and versatility.

HELPDESK – VS API

ROR – PostgreSQL – Redis – ES –Sidekiq

Vakilsearch.com

Partnered with front-end developers to seamlessly integrate a React-based user interface with a Rails backend, significantly enhancing responsiveness and user retention. Applied stringent security best practices, integrated third-party APIs and payment gateways, and developed a secure document vault. Created reusable code libraries, streamlining future development efforts, and played a pivotal role in debugging, troubleshooting, and implementing complex technical solutions.

STENO – AI powered virtual stenographer.

steno.vakilsearch.com

Owned the product from technology front. Worked with Microsoft Machine learning team, architected and built the backend and asynchronous transcribing engine in Ruby on Rails.

INTERNSHIP

VAKILSEARCH, CHENNAI

(Ruby on Rails Full Stack Developer)

FROM: Dec, 2016 TO: June, 2017.
