Software Developer at MangoApps

sumit.vishwa1999@gmail.com

Indore, Madhya Pradesh 452010

SUMMARY

Attain the position of 'Ruby On Rails developer' to apply my exceptional software development skills using new and improved technological tools and techniques for the organisation's development. My skills encompass database management (MySQL, PostgreSQL), API development, and seamless integration of popular third-party services such as S3 and Stripe. Additionally, I have experience deploying on platforms such as AWS.

PROFESSIONAL EXPERIENCE

MangoApps India Private Limited

Pune | July 2024 - Present

- Platform Integration:** Facilitated seamless enterprise integration with over 200 tools, including Single Sign-On (SSO) and Open API configurations, enhancing connectivity and user accessibility across systems.
- Digital Work Hub:** Developed and maintained features in MangoApps' Digital Work Hub, a centralized portal that consolidates essential resources, communications, and updates, fostering a more connected workforce.
- Cloud-Native Development & AI Services:** Contributed to the development of cloud-native solutions and AI-based services that improve workplace engagement and productivity.
- Employee Communication & Engagement Tools:** Worked on real-time, targeted messaging functionalities to support effective employee communication. Integrated feedback mechanisms to provide insights through built-in surveys and engagement tools.
- Employee Recognition & Rewards:** Implemented modules that promote employee recognition, celebrate milestones, and boost morale, strengthening organisational culture and employee satisfaction.

BestPeers Infosystem Private Limited | CMMI Level 3

Indore | June 2022 - July 2024

- Professional Development:** Mention any workshops, training sessions, or courses you attended that contributed to your professional growth. Highlight how these experiences have made you a better professional.
- Customer and Client Interaction:** If you interacted with customers or clients, describe your role in these interactions, the feedback you received, and how you contributed to customer satisfaction and project success.

ROLES & RESPONSIBILITIES

- Wrote complex code, implemented software features, and ensured that the code base was clean, efficient, and well-documented.
- Participated in the full life-cycle of projects.
- Designed and developed phases of the application using the Ruby On Rails framework.
- Utilized Git for Version Control System.
- Wrote Rake tasks for updating the database.
- Added new functionality (enhancements) and fixed bugs in the admin and public websites for the target test preparation project.
- Organised each task of the project on project management tools like Trello and Jira.
- Estimated, designed, and developed various modules.

DECLARATION

I am eager to establish a long-term working relationship. Please feel free to contact me via email.

Thank you,
Sumit Vishvakarma

PROJECTS

Project: 80Steers

Role: Ruby On Rails developer.

Environment: Ruby, Rails, PostgreSQL, AWS(EC2) cloud platform.

Project Details: 80sTees is an e-commerce platform specializing in retro and nostalgia-themed T-shirts inspired by 1980s pop culture. They offer a wide selection of T-shirts featuring characters, logos, and references from 1980s movies, TV shows, video games, and more, catering to enthusiasts of that era's nostalgia.

Project: Trek Health

Role: Ruby On Rails developer.

Environment: Ruby, Rails, PostgreSQL, AWS(EC2) cloud platform.

Project Details: Trek Health offers a service that typically involves a membership or subscription model, where individuals pay a regular fee to access a range of healthcare services. These services include virtual consultations with healthcare professionals, prescription plans, and mental health support.

Project: Scribs-ai

Role: Work as ROR Developer

Environment: Ruby, Rails, PostgreSQL, AWS(EC2).

Project Details: Scribe-AI is an AI tool that provides services similar to those offered by Writesonic.

CERTIFICATIONS

- Software Development Engineer in Testing, Seed Infotech, Pune
