## **TECHNICAL WRITING EXPERIENCE**

### **At Zenith Technology Solutions (Healthcare Product Company):**

- ✓ Zenith provides a web-based Healthcare Product called ICDP (Integrated Care Delivery Platform) designed to help Community Healthcare centers in the United States to provide and monitor value-based care. The product also empowers health plans and providers to succeed with the new models of healthcare delivery and reimbursement
- ✓ The requirement was to develop a user guide and an online help system using a tool called HelpNDoc, that generates Output in multiple formats including Word, PDF, CHM, etc., and develop customized Training Presentations for Webinars for ZTS' clients using a tool called: KingSoft Presentation (similar to MS PowerPoint). Also used the following tool KingSoft Writer (similar to MS Word).

### **At Virtusa:**

- ✓ Develop and review technical, user and business documents such as online help; installation, user and admin guides; proposals and business presentations; software requirement specifications, architecture and design documents; and employee profiles (resumes), using Virtusa's Word and PowerPoint templates.

### **At Satyam Computers:**

- ✓ Develop and review installation, user and Business Continuity documents for Satyam's health care products.

### **At CA:**

- ✓ Update installation and configuration guides for each product release using CA documentation standards and styles.
- ✓ Responsibilities include gathering inputs from SMEs, updating documents based on Style Guide, interacting with US manager on a weekly basis for status update and clarifications, and peer review of colleagues guides.

### **At Virtusa:**

- ✓ Since July 2006: Senior Technical Writer - Document Development for Internet Security Systems Inc. (Used Information Mapping Techniques extensively to develop technical documents.)
- ✓ Nov 2005 – Jun 2006: Technical Writer - Document Development for CitiStreet
- ✓ Jul 2005 – Aug 2005: Technical Writer – Office Automation for Cisco
- ✓ Feb 2004 – Mar 2005: Technical Writer – Data Profiling for Initiate Systems
- ✓ Nov 2003 – Feb 2004: Technical Writer – Vendor Management for Circuit City
- ✓ Aug 2003 – Nov 2003: Technical Writer – SDK Training for Initiate Systems
- ✓ May 2003 – Jul 2003: Technical Writer – Updating Online Help Center for Bank One

### **At PowerCom Technologies:**

- ✓ Nov 2002 – May 2003: Team Lead - Proposals for PowerCom Technologies

### **At LT Solutions:**

- ✓ Nov 2001 – Oct 2002: Senior Technical Writer - Proposals for LT Solutions

***Appreciations Received at Virtusa***

Here are some appreciations I recieved at Virtusa. We had an Intranet Portal, where appreciations are posted about/by employees, managers superiors, etc. The words here are from that Portal called RAVE:

Category: Professional Excellence

---

- ✓ Hi Blessington - I would like to appreciate you for all the efforts you have put into Amdocs-Cablevision project. I tried my hand on technical documentation and I realized how good it can be done only after seeing your documentation skills. The way you articulated the technical aspects in the document was really awesome. It has been appreciated by every one including Amdocs and client. It was a pleasure working with you and hope to work with you in future projects.

Satish Gannavaram

(Associate Architect-Technology)

---

- ✓ Dear Blessington, I wanted to thank you for your excellent work in the Amdocs-CBV project. I have to confess that I didn't really get a chance to go in detail the technical documentation you prepared when you were part of the project. Once I started looking at it, its truly a work of excellence. Thank you for being part of our team and being an excellent team player. Hope we get to work together in an another project soon.

Naveen Alex

(Architect-Technology)

---

- ✓ Blessington is a superb copy writer. On the Cablevision project, we struggled with writing our user manual until Blessington stepped in. In short order, he fully understood objectives and the tone and style required to communicate with our audience. He produced a long manual in a fairly short period of time. His writing style is clear and effective, and he knows how to translate technology into plain English. Kudos on a job well done, Blessington!

Mark Alexander Posth

(Manager-Delivery)

---

- ✓ Hi Sameer / Abhishek,

Per conversation on the Monsanto opportunity this am, I was able to hunt down the name of the tech writer who I had heard of through Nadav Gordon and Mark Posth in Digital who did an exceptional job in helping them write a major response document. The aspect that stuck in their heads and why I am writing is that he did an amazing job in written English very well above and beyond the usual.

Given the significance of the Monsanto deal and the need to minimize the need for re-writing grammar and focusing on content, I want to engage Blessington asap and am looking for you to help getting him involved urgently.

Abhishek, my understanding is Blessington is on your team - please let me know what needs to happen on my end in order to have his involvement quickly.

I am confident from all that I hear that Blessington will be a big asset to the team given the large deliverable due shortly...thanks!

Best Regards,

David P. Spencer  
Vice President | Client Services

---

✓ Hi Bless, Great Turnaround and Thanks a lot for your help. you have always been there for help when needed the most. You are a great Tech Writer and a big plus to any team that you are part of. Thanks again !

Naga Ravi Kiran Duvvuri  
(Manager-Business Development)

---

✓ Hi Bless, Thanks for your help in formatting the proposal deck. Your effort was of great help to us in meeting the deadline for our first milestone. Your quick response is highly appreciated.

Mohit Saxena  
(Manager-Client Services)

---

✓ Hi Blessington Thanks for the quick turnaround of converting the profile in VP format. It's awesome. Please keep up the good work and helping us on emergency time.

Bharath Kumar Karunakaran  
(Associate Manager-Delivery)

---

✓ Thanks a lot Blessington for your timely and extended help for VTAF, OSCAr, ERA and iRapid runbooks development

Srinivas Aluri  
(Director-Shared Services)

---

✓ Hi Bless, Thank you for taking time out of your busy schedule and helping to format the Affinion documents. You are truly awesome. KV

Venkata Murali Krishna Kuniseti  
(Manager-Delivery)

---

- ✓ Thanks a ton for immediately helping in formatting the external profiles to virtusa format without any hesitation. Thank for the timely help.

Previtha Sukumaran  
(Consultant-Shared Services)

---

- ✓ Hi Blessington, You are a great help in delivering all our presales in the last minute where you do the formatting etc within no time. Thanks for the timely support all the time. Thanks & Regards, Chitra

Vijaya Chitra Sripada  
(Associate Architect-Technology)

---

Category: Personal/Social

- ✓ Thanks for your help

It was nice working with you as you made me to understand the work assigned. It was really a good support I received no matter how many I asked questions to understand the content/topic. You never got irritated and never shown anger. Even after the project got over you helped me to understand about the tools I should be good at and the basics of Technical writing. I will work with many professionals in the future but I will never get true and impeccable support like you used to provide to everyone not only me. I look forward working with you here or somewhere else. Words can't describe you it is just formal writing to say a big "Thanks". Thanks Bless.

Alok Kumar  
(Associate Consultant-Specialist)

---

- ✓ Hi guys, I know only few of you, but i can't resist to appreciate you all for your help to that little kid. Thank you all very much for your help. I wish you all and your families good luck and prosperous living . I think you all deserve this little appreciation (RAVE). Hoping more people come forward to help others like you. Have a nice day. Bye...

Siva Ranganath Gupta Noonay  
(Associate Engineer-Technology)

## **TECHNICAL WRITING EXPERIENCE IN DETAIL**

| <b>Project Description</b> | Problem Initiate's Identity Hub is a Customer Data Integration tool. It's an AI system which integrates customer data across corporate databases and stores the integrated data in a single database. The objective of the project was to provide reports on top of this database to get an understanding about the quality of the data that is being entered into various corporate databases. |

| <b>Project Description</b> | Indian Express is a widely read Newspaper in India. The job involved attending press conferences, sourcing information/data and presenting it as readable articles and news reports. Another task was identifying and rewriting newsworthy press releases, and making them presentable for the next day's edition |
