SUMMARY

Senior Software Engineer with over 4+ years of experience specializing in Ruby on Rails and Angular development. Proven track record in building and maintaining robust web applications, integrating REST APIs, and implementing advanced security measures. Experienced in Agile methodologies and collaborative development environments.

PROFESSIONAL EXPERIENCE

Vyshnavi Information Technologies (I) PVT. LTD Senior Software Engineer

Oct 2020 - Present

Project: RallyPay - A unique web application offering payment tools and crowdfunding features designed to help fundraisers and direct marketers increase donor and sales conversions, upsells, and data retention. Widely utilized by for-profit entities, this system allows users to make donations, supports fundraisers, and provides multiple options for creating and designing donation pages. Additionally, it functions as a payment gateway.

Technologies: Ruby on Rails, Angular, AWS Cloud, Nginx, Honeybadger, Resque

Phase 1: Maintenance and Bug Fixes

- Diagnosed and resolved bugs in both backend and frontend systems.
- Implemented new features based on client requirements.
- Introduced Two-Factor Authentication to secure sensitive information, including individual and organizational details, as well as bank account information
- Implemented PCI-compliant access controls with features like password lockouts, password standards, and periodic password changes.
- Collaborated with the Customer Support (CS) team to investigate and resolve issues efficiently.

Phase 2: Backend Enhancement

- Conducted impact analysis and developed solutions for existing modules.
- Modified database structures to accommodate new features and functionalities.
- Fixed filter API issues on the Client portal to enhance user experience.
- Developed a notification module and integrated full functionality for real-time notifications.
- Redeveloped payment portal functionalities to retrieve upsell values during transactions.
- Created new REST APIs and updated existing ones for modules like Finance, Dashboard, Settings, Pages, Admin, and Reports.
- PCI Compliance Fixes:
 - Ensured PCI compliance for crowdfunding systems by conducting security scans across all applications in the system.
 - Fixed identified issues to ensure all scan reports were clean and met PCI standards.
- Implemented automatic logout after 2 hours of inactivity, with seamless redirection to the previous page post-login.

- Added AuthService functionality to enhance security for microservice APIs.
- Developed REST APIs to calculate and add processing fees to donation amounts on donation pages.

Phase 3: UI Enhancement

- Developed a new Angular project and transitioned the UI from legacy MVC pages to Angular 13.
- Designed and implemented Angular 13 UI screens, replacing outdated MVC HAML pages.
- Created detailed UI screens for individual transaction views and popup screens to enhance user interactions.
- Integrated REST APIs with Angular 13 UI screens for seamless data flow and functionality.
- Enhanced admin operations UI, improving ease of use and efficiency.
- Added advanced filter functionalities, including filters by dates and days, to refine data display.
- Streamlined navigation flows and optimized page load times, resulting in a more responsive user interface.

Additional Contributions

- Resolved Git PR commit issues to ensure smooth code collaboration.
- Managed staging deployment processes efficiently, ensuring timely and successful deployments.
- Delivered comprehensive knowledge transfer sessions to junior team members, mentoring them on key development practices and techniques.
- Regularly updated and communicated with the QA team to ensure alignment and understanding of new features and bug fixes.
- Monitored Honeybadger and Resque workers to ensure smooth system operations and reliability after production release

TECHNICAL SKILLS

Programming Languages:

- Ruby
- C

Web Technologies:

- Ruby on Rails
- CSS
- Angular
- HTML
- REST

Database:

- MySQL

Version Control:

- Git

Development Tools:

- VS Code
- Sublime

EDUCATION

BE in Electronics and Communication Engineering
Anna University, Chennai.

2016-2020
