Vasupalli Ramya

Hyderabad, 500046

SUMMARY:

Highly motivated and adaptable Software Developer with a strong work ethic and exceptional interpersonal skills. Adept at working effectively unsupervised and quickly mastering new skills. Seeking an entry-level IT job position to contribute to a company's success and further advance my career.

PROJECTS:

Covid-19 Tracker

- Developed a Covid-19 tracking application to monitor global new cases, recoveries, and deaths.
- Implemented interactive maps and charts for specific country-wise data visualization.
- Provided daily new cases reports with mobile and tablet support.

Movieland App

- Created a simplified version of the Filmpire application, "Movieland," for users to access and search for movies.
- Developed a mobile-responsive interface for searching and scrolling through the latest movies.
- Utilized state management, different components, and props for a dynamic user experience.

Zomato Website

- Contributed to a food delivery app using JavaScript, CSS, and React technologies.
- Developed a technology platform connecting customers, restaurant partners, and delivery partners, catering to various needs.
