Projects:

1. *Bachelor of Engineering Minor Project:*

Created a social networking website by the name of 'MISSION INDIA' using ASP.NET as the programming language and with Microsoft SQL server 2012 as the backend. The project was designed to collect data from simple web-based queries that were aimed to solve issues like corruption etc. The user could express their views and opinions on certain pre-formatted questions that were then persisted and presented as opinions on a query-based search. The project was written using Microsoft Visual Studio IDE.

2. *Bachelor of Engineering Major project:*

Created a website by the name of 'HOSPITAL SEARCH' that was used to search hospitals, clinics, doctors based on certain criteria like disease of patients, blood banks etc. The project was developed in ASP.NET 4.0. The back end used was Microsoft SQL server 2012 and the project was written using Microsoft Visual Studio IDE.
