

NAME : Ammanabrolu Hema

Phone no : +91 8498889479

Email id : hemaammanabrolu@gmail.com

CAREER OBJECTIVE:

A committed job seeker with a history of meeting company needs with consistent and organized practices. Skilled in working under pressure and adapting to new situations and challenges to the best organizational brand.

TECHNICAL SKILLS:

- Proven experience in creating branches and tagging concepts in Version Control tool like **GIT**.
- Experience in building and deploying front-end web applications frame work like **REACT JS**.
- Good experience in **HTML,CSS,JAVASCRIPT**.
- Have knowledge on mainframes topics like **JCL,COBOL**.
- Have work on experience in the database like **MYSQL**.
- Having good practise with **CORE JAVA**.

EDUCATIONAL QUALIFICATION :

- Completed Degree from Sri Pratibha Degree college at B.SC(Computers)branch in2022 with 82%
- Completed TTC from Vivekanandha college in 2018 with89%
- Completed Intermediate from Pratibha Junior College in 2016with 86.8%
- Completed SSC from Santhinikethan High School in 2014with 9.6 CGP

Project Experiance:

1.Banking Application Backend Project

Description:

As a recent graduate with a passion for software development and a keen interest in the finance sector, I undertook the development of a comprehensive bank application as a personal project. This project aimed to simulate real-world banking operations and provide users with a seamless and secure platform for managing their finances

Key Features:

- **Account Management:** Developed functionalities for users to create, update, and delete their accounts. Implemented validation checks to ensure the integrity of account data.
- **Transaction Handling:** Integrated features for users to perform various transactions, including deposits, withdrawals, fund transfers, and bill payments. Implemented transaction logging to maintain a comprehensive record of all financial activities.
- **Balance Inquiry:** Provided users with the ability to check their account balances in real-time. Implemented caching mechanisms to enhance performance and minimize latency.

Technologies used:

- **Git ,Github**
- **Core java**
- **MySql**
- **Html,CSS**
- **Ecllipise**
- **Jdbc**

Achievement:

The bank application project provided me with valuable hands-on experience in software development, particularly in the fintech domain. It allowed me to showcase my skills in back end development, database management. Moreover, it reinforced my understanding of industry best practices and standards, preparing me for future opportunities in the field of software engineering

2. Flipkart-Inspired E-commerce Frontend Project

Description:

The Flipkart-inspired e-commerce frontend project aimed to replicate the user interface and functionality of the popular e-commerce platform, Flipkart. Leveraging modern frontend technologies and design principles, the project sought to provide users with an engaging and seamless shopping experience.

Key Features:

- **Product Listings:** Implemented a dynamic product listing page featuring a variety of products categorized by type, brand, price range, etc. Utilized pagination or lazy loading to optimize performance and user experience.
- **Search Functionality:** Integrated a robust search functionality allowing users to search for products based on keywords, categories, or filters. Implemented auto-suggestions and advanced search options for enhanced usability.
- **Product Details Page:** Created a detailed product view page displaying comprehensive information about each product, including images, descriptions, specifications, pricing, and reviews. Implemented interactive features such as zoomable images and product comparisons.
- **Cart Management:** Implemented features for users to add/remove items to/from their shopping cart, update quantities, and proceed to checkout. Utilized local storage or session storage for persisting cart data between sessions.
- **Checkout Process:** Designed an intuitive checkout process with multiple steps, including shipping information, payment method selection, and order review. Implemented form validation and error handling to ensure data integrity and a smooth checkout experience.
- **Responsive Design:** Ensured responsiveness across various devices and screen sizes, utilizing CSS media queries and flexible layouts to adapt the UI to different viewport dimensions.

Technologies used:

- **Java Script**
- **Html**
- **CSS**

Achievements:

- Successfully delivered a fully functional e-commerce frontend project within the specified timeline, demonstrating effective time management and project execution skills.
- Received positive feedback from peers and mentors for the intuitive user interface and smooth navigation of the application.

CERTIFICATIONS:

- I have done **Almabetter** Certification Course on **frontend web development**.
- **Accenture Certification** on **Developer Virtual Experience Program**.
- I have completed Young professional program conducted by TCS ion career edge.

SOFT SKILLS :

- Good Communication skills, Result oriented and Hard working.
- Self-motivated and zeal to learn new things and Technologies.
- Flexible character for work.
- Honest and self-confident.
- Developer Virtual Experience Program
- Good programming language skills

PERSONAL INFORMATION :

Name : **Ammanabrolu Hema**

Date of birth : 26-02-1999

Father's Name : Ammanabrolu Srihari

Nationality : Indian.

DECLARATION

I hereby declare that the information given in this form is true to do the best of my Knowledge and belief.

A.Hema
