 Hyderabad

Profile Summary

A leading Instructional Designer with 3.5 years of core industry experience, having hands-on experience working with diverse MNCs to serve their training needs. With my expertise in translating complex concepts into clear, concise, engaging, and appealing learning content, I have successfully designed and developed e-learning using almost all the ID Strategies.

Work Experience – 3.5 Years

Senior Instructional Designer

Wipro Limited (Aug 2022 – Present)

- I am working with a global client as a member of their administration team.
- My primary responsibility is designing e-learning for various business lines and collaborating with multiple Subject Matter Experts from different countries to meet their training needs.
- Additionally, I also contribute to developing their internal Learning Management System (LMS).
- Another important aspect of my role is to write metadata for images used in courses, ensuring that they meet accessibility standards and enable visually impaired learners to perceive the image through the metadata.

CommLab India LLP (Feb 2021 – Aug 2022)

- I have had the privilege of working with more than 15 companies worldwide. With my expertise, I was able to provide them with the best solutions for their training needs.
- I collaborated with more than 20 subject matter experts from many parts of the world to understand their Instructor-Led Training (ILT) materials and training requirements.
- I have translated complex business concepts into clear, concise, easy-to-understand, and appealing learning content.
- With my instructional design skills, I have developed over 80 e-learning courses that use robust strategies like simulation, guided learning, scenario-based learning, gamification, storytelling, LEAD, and more.
- In addition, I have created over 20 on-the-job training materials such as job aids, handouts, and videos.
