SUMMARY

Highly skilled and motivated Ruby on Rails developer with 3 years of experience in building and maintaining web applications and mobile applications. Proficient in Ruby, Rails, and Java and well-versed in HTML, CSS, and SQL. Skilled in Agile methodologies and test-driven development, with experience in deploying and scaling applications on various cloud platforms. Strong understanding of RESTful design principles and experience building RESTful APIs and microservices. Proven ability to troubleshoot and debug complex software issues and a proven track record of delivering projects on time and within budget.

SKILLS

- Strong proficiency in Ruby.
- Experience with Ruby on Rails
- Understanding of fundamental design principles behind a scalable application
- Experience with common libraries such as RSpec.
- Familiarity with database management systems, such as PostgreSQL, Redis, SQLite.
- Good understanding of front-end technologies, such as HTML, and CSS
- Knowledge on Java, C languages
- Familiarity with concepts of MVC, Mocking, ORM, and RESTful
- Strong unit testing and debugging skills
- Proficient understanding of code versioning tools such as Git
- Experience with Agile methodologies.
- Good problem solving and debugging skills.
- Experience with cloud services like Heroku.

• 8.8 CGPA

EXPERIENCE

Ruby on Rails Developer
DispatchTrack India Pvt Ltd. | Hyderabad, India

02/2024 - Current

Associate Engineer
Westagile IT Labs India Pvt. Ltd. | Hyderabad, India

08/2021 - 01/2024

- Writing clean, maintainable, and efficient code
- Designing and implementing low-latency, high-availability, and performance applications
- Proficient in handling JSON and XML formats for data exchange between the server and client applications
- Implementing secure authentication mechanisms (e.g., OAuth, JWT) and authorization controls to protect API endpoints and data.
- Providing versioning support for APIs to maintain backward compatibility and facilitate smooth transitions when making updates.
- Designing and implementing low-latency, high-availability, and performance applications.
- Integration of user-facing elements developed by front-end developers with server-side logic
- Implementation of security and data protection
- Performance tuning, improvement, balancing, usability and full-stack debugging
- Collaboration with other team members and stakeholders
- Stay up-to-date with the latest industry trends and technologies.
- Proficient in working with databases, particularly ActiveRecord in Rails, for efficient data storage, retrieval, and management.

AWARDS AND RECOGNITIONS

I have been recognized as a shining star for my exceptional performance.
