Education

B. Tech. in **Computer Science** and Engineering from JNTUH Hyderabad.

Core Competencies

- Unit Testing & System Integration Testing
- Control Statement Documents
- Software Development Framework (SDF)
- Resource Management
- Centre of Excellence (CoE)
- Capability Maturity Model Integration (CMMI)
- Solution Optimisation
- Failure Mode Effect Analysis (FMEA)
- Critical Path Method (CPM)
- Software Development Lifecycle (SDLC)
- Project Management

Technical Skills

Programming Language: Ruby v1.9.x, 2.x
Web Framework: Rails v3.x, 4.x, 5.x, 6.x, 7.x
Database: MySQL, PostgreSQL, MongoDB
Front End Technologies: HTML5, CSS3, JavaScript, React JS, AngularJS,
Operating systems: Linux - Ubuntu and Windows.
Version Control Systems: SVN, GIT
IDE: Sublime text, VS Code
Deployment Tools: Nginx, Unicorn

Profile Summary

- Possess **Web Application Development** expertise with **over 5 years** of hands-on experience in **Ruby on Rails, MongoDB, MSQl, Angular JS, and React JS** technologies in **Ubuntu** environments.
Showcased proficiency in **Rails MVC framework** and **ORM** concepts while excelling as a **Software Engineer**.
- Exhibiting strong knowledge in the **Healthcare** domain, coupled with solid experience in version control systems like **Git** and **SVN**, and a thorough understanding of **REST** architecture.
Provided insightful knowledge of business process analysis (**As-Is, To-Be**) and designed managed application based **process re-engineering, process optimization, cost control & revenue maximization** from **technical solutions** using cutting-edge technologies.
- Demonstrated a track record of fostering effective **team collaboration** through excellent verbal and written communication skills.
- Managed **large and complex projects** or multiple components of a large project involving more than one company's product.
- Liaised with **internal/external clients** to determine specific requirements and expectations; managed client expectations as an indicator of quality.

- **Genzeon Technology Solutions Pvt. Ltd. Hyderabad | March, 2023 – November, 2023**
- **Nalashaa Solutions India Private Limited, Bangalore | April 2022- February 2023**
- **The Health Guru, Coimbatore, Chennai | October, 2020 – March, 2022 | Software Engineer**
- **Srishti Software Applications Pvt. Ltd, Bangalore | January, 2018 – October, 2020 | Software Engineer**

Roles across the career:

- Led development of web applications using Ruby on Rails and React JS.
- Collaborated with a team of 7 to integrate algorithms for personalized recommendations.
- Applied advanced technologies to enhance user experience and optimize performance.
- Conducted code reviews and mentored junior developers.
- Maintained project timelines and ensured delivery of high-quality solutions.
- Proactively resolved technical issues to maintain software integrity.
- Participated in Agile development to improve workflows and productivity.
- Engaged in continuous learning to stay updated on web development trends.
- Developed a feature that increased user engagement and received positive feedback.
- Optimized deployment processes, reducing time and enhancing project efficiency.

Projects Executed

Stitchfix

- Analytical
- Adaptability
- Innovation
- Communication
- Collaboration
- Willingness to Learn

- **Date of Birth:** August 4th, 1992
- **Languages Known:** English, Hindi, Telugu
- **Address:** Hyderabad

Technology: Ruby 3.1.0, Rails 6.1.0 | **Designation:** Software Engineer | **Team Size:** 7
Duration: March, 2023 – Present

Description: Stitch Fix is an online personal styling service that delivers curated clothing selections directly to your door. By leveraging algorithms and data science, it offers personalized clothing recommendations for men, women, and children.

WEnergy Software

Technology: Ruby 2.5.2, Rails 5.2.1 | **Designation:** Software Engineer
Duration: April, 2022 – Present

Description: WEnergy is a cloud-based accounting and ERP solution tailored for mid-market companies in the energy sector. It delivers precise reporting, streamlined workflows, and actionable data insights to enhance operational efficiency and decision-making.

“PARAS” (Healthcare Information Management System)

Client 1: SNH (SREE NARAYANA HOSPITAL)

Client 2: SMH (Shanti Mukand Hospital)

Technology: Ruby 1.9.2, Rails 3.0.0 | **Designation:** Software Engineer | **Team Size:** 7
Duration: January, 2018 – October, 2020

Description: PARAS is a comprehensive healthcare solution that manages the entire patient care lifecycle. It includes services such as outpatient and inpatient registration, patient search, episode tracking, test results, diet planning, prescription records, feedback collection, doctor's schedule and availability management, operation theater oversight, lab, kitchen, radiology, pharmacy, and store management, as well as billing, settlement, administrative controls, report management, and medical and patient records.

“PIVOTXL” (Excel Based Cloud Financial Planning)

Technology: Ruby 2.1.3, Rails 4.1.6 | **Designation:** Software Engineer | **Team Size:** 3
Duration: October, 2020 – Present

Description: PivotXL enables users to create OLAP cubes and link them to Excel cells to build templates for task-driven workflows. These templates streamline data transfer between databases and Excel, with all data version-controlled and centralized, eliminating the need for multiple email versions and manual reconciliation.

As a full-stack FP&A solution integrated with Microsoft Excel, PivotXL offers an affordable alternative to costly financial software, enhancing Excel with organization, security, and workflow management. Users need to create an account with PivotXL to use the Add-In.

Key Result Areas:

- Gathered project requirements and understood application flow.
- Contributed to project scope and documentation during the design phase.
- Worked with the design team, providing hand-drawn sketches for wireframes.
- Participated in designing application databases.
- Addressed and debugged application issues.
- Worked on view layer, controller layer, and model layer of applications.
- Attended daily and weekly meetings to review project status.
- Held weekly meetings with clients to provide project updates.
