SUMMARY

Ruby on Rails Developer with 3 years of experience delivering scalable web applications, secure APIs, and responsive UIs. Skilled in integrating third-party services (Stripe, Twilio), implementing RBAC, and optimizing database performance. Strong focus on Agile teamwork, clean code, and Docker-based development environments.

SKILLS

- **Languages & Frameworks:** Ruby on Rails, JavaScript, React.js, HTML, CSS, Bootstrap, Tailwind
- **Databases:** PostgreSQL, MySQL
- **Tools & Practices:** Git, Docker, Sidekiq, Redis, RSpec, FactoryBot, Devise, ActiveAdmin
- **Concepts:** RESTful API Development, MVC, RBAC, Authentication & Authorization, Database Optimization
- **Tools:** Teams, Jira, Asana, Slack

EXPERIENCE

Software Engineer | Everpeak IT Solutions

Feb 2024 – Aug 2025

- Developed 10+ RESTful APIs with Ruby on Rails, improving system scalability.
- Integrated Stripe, OAuth, and JWT, reducing authentication failures by 25%.
- Automated workflows with Sidekiq, cutting manual processes by 30%.
- Improved test coverage by 60% using RSpec & FactoryBot, ensuring high-quality releases.
- Actively contributed to Agile sprints, enhancing delivery speed by 15%.

Junior Software Engineer | Precious Infosystem

Feb 2023 – Feb 2024

- Built and maintained Rails apps with PostgreSQL & Bootstrap, serving 500+ active users.
- Optimized user dashboards, reducing page load time by 20%.
- Fixed high-priority bugs, improving system uptime to 99.9%.
- Collaborated in Agile workflows, increasing sprint completion rate by 10%.

Intern | Glintsys Webtech Pvt. Ltd.

Jul 2022 – Dec 2022

- Supported full-stack development with Rails, PostgreSQL/MySQL, HTML, CSS, Bootstrap.
- Contributed to RESTful API development and debugging, reducing API errors by 15%.
- Participated in Agile practices—standups, sprint planning, and code reviews.

PROJECTS

Amit Build Card – Home Services Platform

- Built a full-stack platform connecting customers with service providers.
- Developed backend APIs in Rails and integrated Stripe (payments) & Twilio (messaging).
- Delivered a responsive UI with JavaScript, Bootstrap, and CSS, boosting usability.
- Optimized database queries, improving performance by 25%.

Lamsa – Role-Based Job Management System

- Created a job/task management platform with RBAC for Admin, Business Owner, Employees.
- Automated workflows in Rails, reducing manual task management by 35%.
- Implemented responsive frontend with JavaScript, Bootstrap, and CSS.
- Enhanced database performance and reduced downtime by 20% through optimization.

EDUCATION

- B.Tech – Computer Science | Jawaharlal Institute of Technology, Borawan — 75%
