Technical Documentation Writer

Summary

Technical Writer with over 6 years of experience creating, managing, and delivering high-quality technical documentation for wind energy, aerospace, defense, and manufacturing sectors. Expert in preparing structured manuals, service procedures, and engineering specifications aligned with global standards. Skilled in PTC Arbortext, Adobe Illustrator, Confluence, and SharePoint, with a proven ability to translate complex engineering data into user-friendly documentation.

Career Highlights

- **Technical Documentation:** User Manuals, System Specs, Installation Guides, Retrofit Procedures, and Work Instructions.
- **Standards & Methodologies:** ISO/IEC, MIL-STD, DITA XML, Microsoft Manual of Style.
- **Tools:** PTC Arbortext, Adobe FrameMaker, Illustrator, InDesign, Confluence, Doc360, SharePoint, Jira.
- **Domain Expertise:** Wind Energy Systems, Defense & Missile Systems, Telecom & Networking Documentation and Aerospace.
- **QA Collaboration:** Documentation validation, creation of test scripts, and process verification support.
- **Soft Skills:** Analytical thinking, teamwork, time management, and adaptability.
- **Other Technical Content:** Indian Patent Journals publication and supporting documentation for cross-functional teams.
- **Operating Systems:** Windows (11, Vista, XP), Linux, I Series (OS/400), Ubuntu
- **Networking & System Skills:** VPN configuration, PC networking, system troubleshooting, and IT support.

Certifications

- Technical Document Writing – Hendry Harvey (Highlighted Certification) – Feb 2024.
- Project Management – PMI-ACP (Simplilearn) – Aug 2025.
- Power BI – Simplilearn – Aug 2025.
- Data Science & Analytics – HP Life – Aug 2025.
- Agile Project Management – HP Life – Aug 2025.
- Software Testing with Generative AI – Simplilearn – Aug 2025.
- AI for Beginners – HP Life – Aug 2025.

Education

- M.Tech in Digital Communications | KITS Warangal | 9.12 CGPA.
- B.Tech in Electronics & Communication Engineering | JNTUH | 83.4%.

PROFESSIONAL EXPERIENCE

❖ Technical Documentation Writer | Zealogics Pvt Ltd | Jan 2025 – Present

Project: Wind Turbine_2XM, 3.1XM and 4XM

Client: Senvion_Bangalore

Experience:

- Creating and updating retrofit documents, operational and replacement manuals, and specification documents for Senvion's 2XM, 3XM, and 4XM wind turbine platforms as per company standards.
- Developing detailed text and illustrations to describe turbine component operations, replacement tasks, and maintenance procedures.
- Utilizing tools such as PTC Arbortext, Adobe Illustrator, InDesign, and Creo View for content creation, layout design, and illustration updates.
- Managing document control, storage, and version tracking using SharePoint, MasterDB, and Confluence platforms.
- Performing document revisions and incorporating engineering change requests (ECRs) to maintain alignment with updated system configurations.

❖ Technical Documentation Writer | GVR Techno Labs | Apr 2024 – Dec 2025

Project: Shashrashakti, Agni, Asra

Client: DRDO -RCI Hyderabad

Experience:

- Created user manuals, maintenance guides, and operational procedures for missile projects such as Shashrashakthi, Agni, and Prudvi.
- Documented telecom and networking subsystems including RF links, SATCOM, routers, switches, and encryption modules.
- Utilized DRONA, and ERP web-based tools for content management, document structuring, and workflow tracking.
- Worked closely with defense engineers and SMEs to ensure documentation accuracy, confidentiality, and MIL-STD compliance.

❖ **Technical Officer / Quality Tester | ECIL, Hyderabad | Jan 2020 – Jan 2024**

Project: Brahmos, Akash, Automatic Under Water Vehicle

Client: ECIL Hyderabad

Experience:

- Developed technical manuals, product specifications, and integration documents for telecom, wind energy systems, and defense projects such as BrahMos and Akash weapon systems.
- Supported QA validation and manual testing by creating test documentation, test case reports, and defect traceability records.
- Utilized ERP, R&D Web, and BAYA tools for document management, review tracking, and version control of technical deliverables.
- Standardized documentation templates and glossary formats, ensuring consistency across engineering, service, and retrofit manuals.
- Coordinated cross-functional document reviews with design, quality, and manufacturing teams to align technical accuracy and visual clarity before release.

❖ **Senior Consultant | Quality tester | Nov 2017 – Nov 2019**

Project: Brahmos, , EMIEMC, RAD Lab

Client: ECIL Hyderabad

Experience:

- Created and updated interface control documents, installation guides, troubleshooting manuals, and test reports for missile communication and networking systems.
- Supported manual testing activities by preparing test cases, validating results, and documenting test outcomes for QA review.
- Collaborated with engineering and R&D teams to ensure documentation and testing processes complied with MIL and organizational standards.

❖ **Technical Support Engineer | Maruti Suzuki Pvt. Ltd, Warangal | Feb 2015 – Aug 2017**

Client: Maruti Suzuki Pvt.Ltd-Warangal

Experience:

- Provided technical support for VPN, software configuration, and secure remote access troubleshooting.
- Resolved system issues and guided users through process steps, improving customer satisfaction metrics.
