PROJECTS

Recpal Healthcare Agency | <https://recpalapp.co.uk/home/>

RecPal is an innovative staffing solution project designed to bridge the gap between healthcare providers (hospitals) and skilled professionals. The project focuses on providing reliable and qualified candidates, including nurses, doctors, and drivers, to hospitals and healthcare agencies. RecPal will work closely with hospitals to understand their staffing needs and supply the most suitable professionals in a timely manner.

Technologies uses: Ruby on Rails, postgresql, vueJs

Responsibilities

- Designed and managed all back-end APIs, ensuring secure and efficient data handling.
- Team Coordination Ensure smooth coordination within the back-end team and with other teams, ensuring dependencies are properly managed..
- Leading the team Oversee the project progress, ensuring the team stays focused on the project goals and objectives.
- Assigning tasks Distribute tasks based on team members' strengths and expertise.
- Communication Act as the point of contact between different teams (such as the back-end team, front-end team, etc.) and ensure everyone is aligned with the project vision.

NEO-rail(Fanconnect, modern streaming application)

NEO-Rails is a modern streaming application designed to deliver live sports events and other activities to users via TV and mobile devices. This project integrates a robust back-end built with Ruby on Rails (RoR) and a dynamic, user-friendly front-end powered by React.

Technologies uses: Ruby on Rails, postgresql, GraphQL

Responsibilities

- Design, develop, and maintain scalable and efficient backend services using Ruby on Rails (RoR).
- Implement RESTful APIs and GraphQL queries/mutations to enable seamless communication between the front-end and the back-end.
- Collaborate with front-end developers to ensure smooth integration of APIs and optimize performance.

ScioServices-1

The project aims to develop a responsive, web-based tool designed for property surveying and telecommunications. The primary goal is to provide an efficient platform for survey users to collect, organize, and share site and network data along with images and videos. It offers a more accurate, faster, and accessible alternative to current surveying methods. The data collected can be shared and accessed by authorized users including guest user and service providers through a dedicated web portal.

Technologies uses: Ruby on Rails, postgresql

Responsibilities

- Designed and managed all back-end APIs, ensuring secure and efficient data handling.
- Team Coordination Ensure smooth coordination within the back-end team and with other teams, ensuring dependencies are properly managed.
- Implemented and maintained Rspec automated tests to ensure robustness and reliability of rails application.

TECHNICAL SKILLS

Languages & Frameworks: Ruby on Rails, Mysql, GraphQL, Bootstrap, Postgresql, html,css

Testing: Rspec, Minitest

Version Control System: Git

Core Competencies: Problem-solving, Time Management, Collaboration,

ACADEMIC QUALIFICATIONS

School qualifications

- 12 th , S.G.P(Dewas)/MP Board(2018).
- 10 th , Gov.Inter Collage SHAHJAPURE(JHANSI)/ UP Board(2016).

Collage qualifications:

- Bachelor of Engineering B.Tech(Information Technology) (2028-2022)
- Malwa Institute of Technology, Indore(m.p) RGPV University

PERSONAL INFORMATIONS

- **Father's Name:** RajaRam Singh
- **Date Of Birth:** 04/july/1999
- **Permanent Address:** Kalani Bagh Dewas M.P.
- **Languages:** Hindi and English
