SENIOR FULL STACK DEVELOPER

With over 8 years of experience, I am a seasoned Full Stack Developer with a deep understanding of both front-end and back-end technologies, specializing in Ruby on Rails. My expertise spans the entire development cycle of web applications, from ideation to deployment. I have a strong track record in Agile environments and excel in developing complex applications, maintaining systems, and leading projects to meet tight deadlines. I continuously stay updated with the latest web development trends to ensure the delivery of modern and efficient solutions.

SKILLS

Core Development Skills	Project Management & Methodologies	Technologies & Tools
Ruby on Rails	Agile Development	Amazon Web Services (AWS)
Full-Stack Development	Project Leadership	EC2, S3, RDS
Automated Testing	Cross-Functional Collaboration	Micro-services Architecture
Front-end Technologies	Time Management	CI/CD Pipelines
Back-end Data Solutions	Problem Solving	Code Refactoring
Software Debugging	Stakeholder Engagement	Memory Management
Performance Optimization	Software Development Cycle	Static Analysis Tools
API Development		Docker / DevOps

LANGUAGES AND FRAMEWORKS

Frontend Technologies	Backend Technologies	DevOps & Version Control	Additional Skills
HTML/CSS/SASS	Ruby on Rails	Git	OAuth and JWT
JavaScript / ES6/ Node JS	SQL/ Non-SQL/ GraphQL/ MongoDB	Kubernetes / Docker	ActionCable/Websocket
React/Angular/Vue.js	RESTful APIs	Micro-services Architecture	Gem Creation
Bootstrap/Foundation	Microservices	Nginx	Linux Command Line
Tailwind CSS	Sidekiq/Redis	CI/CD Pipelines	Elasticsearch

EDUCATION

Master of Business Administration - MBA in Management and Operations

Indira Gandhi National Open University • Delhi

06/2025 - ongoing

Bachelor's degree in Computer Software Engineering

Dr. M.G.R. Educational and Research Institute • Chennai

07/2014 - 07/2017

High School

Raath International School

06/2010 - 04/2014

WORK EXPERIENCE

JAGGAER • Hyderabad **Software Engineer • Contract**

09/2025 -present

- Optimized backend systems supporting source-to-pay operations using Ruby, Perl, and MySQL on Red Hat Enterprise Linux (RHEL), improving system stability.
- Worked on modernization initiatives for legacy procurement applications by integrating scalable APIs and automation-driven workflows across enterprise systems.
- Leveraged prior experience with monitoring, debugging, and scalable backend architectures to resolve production issues and improve platform reliability.

Stack: Ruby on Rails, Perl, MySQL, Red Hat Enterprise Linux (RHEL), AI Integration, REST APIs, Linux Administration

Shore Group Associates • Hyderabad **Team Lead • Remote**

07/2024 -08/2025

- Collaborated with cross-functional teams to identify, debug, and resolve ~95% of production issues, significantly improving system stability and reducing downtime.
- Implemented monitoring and error tracking using Sentry and Rollbar to proactively detect and resolve issues.
- Built and maintained RESTful APIs with efficient caching strategies using Redis to improve response times.

Stack: Ruby on Rails, MongoDB, Redis, Heroku, DigitalOcean, REST APIs, RSpec, Sentry, Rollbar

AventumX • Noida, India

01/2019 - 05/2024

Software Engineer, Management • Full-time

- Contributed to a team of 5 engineers to build and launch a full-scale software product from scratch.
- Designed scalable backend architecture, improving application performance and user experience.
- Reduced development cycle time by ~20% by implementing Agile practices and improving team workflows.

Stack: Ruby on Rails, Python, React.js, Node.js, MongoDB, AWS (EC2, S3, RDS), Nginx, Git

Enbake Consulting • Delhi

07/2017 - 01/2019

Junior Software Engineer • Full-time

- Researched and implemented a testing framework, improving early bug detection and code reliability.
- Contributed to frontend and backend development using Rails and JavaScript.

Stack: Ruby on Rails, MySQL, JavaScript, jQuery, HTML, CSS

PROJECTS

Holistic Risk & Business Intelligence Platform

SRA Watchtower → Lumio 2.0 (Lumio Solutions) 

07/2024 -08/2025

Contributed as a Senior Rails Developer to build and expand Lumio 2.0, a cloud-native, modular BI and risk platform for community financial institutions. Developed multi-tenant Ruby on Rails services for high-volume data ingestion, reporting, and risk analytics.

Internationally-accredited credentialing

Qualified Applied Behavior Analysis Credentialing Board 

01/2018 -04/2024

Developed an entire platform from scratch to recognize individuals with specific education in Applied Behavior Analysis. Utilized technologies such as Ruby on Rails, Amazon EC2, S3, RDS services, React.js for API Frameworks, Capistrano for Deployments, and Rubocop for static analysis.

Large ticketing web application

01/2023 - 03/2024

Regitr 

Contributed as a developer to create a large ticketing web application. Worked with Ruby on Rails, Heroku and DigitalOcean services, REST API backend development, Vue.js/CSS/SCSS for front-end development, and implemented Scrum methodologies.

Biotechnology

01/2023 - 12/2023

Twist Bioscience 

Utilized a proprietary semiconductor-based synthetic DNA manufacturing process to provide time and cost savings for customers in DNA synthesis workflows. Technologies used included Ruby on Rails, semiconductor-based technology for DNA synthesis, React.js for API Frameworks, Yarn for package management, and Unix/Linux, Nginx, Apache for server configuration.

Farm Management Platform

05/2023 - 12/2023

Pasture 

Improved Ruby on Rails application for making informed grazing decisions with satellite pasture measurements. Utilized technologies such as Ruby on Rails, satellite technology for pasture measurements, REST API backend development for Mobile Apps, TDD/BDD and unit testing tools, and Webpack/ Vue.js for asset management.

CERTIFICATIONS

Hackathon

05/2022 - 05/2022

JECRC University

AWS Cloud Practitioner Essentials

08/2021 - 08/2021

AWS
