Ruby on Rails Developer — 3+ Years Experience — APIs, PostgreSQL, Sidekiq, AWS

Immediate Joiner — Open to relocate to Pune — Open to Ruby on Rails opportunities

SUMMARY

- **Profile:** Ruby on Rails developer with 3+ years experience building scalable web applications and REST APIs. Experienced with PostgreSQL, MySQL, MongoDB, Redis, Sidekiq, AWS, Docker, and Heroku deployments. Worked on payment systems, third-party integrations, and performance optimization.

EDUCATION

- **IIMT group of colleges** Meerut, Delhi NCR, UP
Bachelor of Computer Applications - Information Technology; GPA: 7 *July 2015 – June 2018*
Courses: Operating Systems, Data Structures, Artificial Intelligence, Networking, Databases
- **Institute Of Management Studies** Ghaziabad, Delhi NCR, UP
Master of Computer Applications - Information Technology; GPA: 7.27 *July 2019 – June 2021*
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- **Languages:** Ruby, JavaScript, SQL, Python
- **Frameworks:** Ruby on Rails, Django, RSpec
- **Frontend:** JavaScript, React, Stimulus.js
- **Databases:** PostgreSQL, MySQL, SQLite, MongoDB
- **Tools:** Docker, Kubernetes, Git, AWS, Capistrano, Heroku, CI/CD
- **Concepts:** REST APIs, MVC Architecture, Database Optimization, OOP, Agile Development
- **Backend Systems:** Redis, Sidekiq, ActiveJob, Background Job Processing, WebSockets, API Integrations

PROFESSIONAL EXPERIENCE

- **Sobonix IT** Mohali - Onsite
Full Stack Developer (Rails) *Apr 2025 – Jan 2026*
 - **Legacy Platform Revamp:** Designed and optimized scalable RESTful APIs handling concurrent requests and high-throughput workloads using Ruby on Rails and PostgreSQL, and managed deployments using Heroku, AWS, and Capistrano.
 - **Optimization:** Improved application security and optimized AWS infrastructure, reducing operational costs by 25% and improving response time by 30%, Implemented RSpec test cases for APIs and business logic.
- **Chetu India Private Limited** Noida, Uttar Pradesh
Full Stack Developer (Rails) *Apr 2023 – Feb 2024*
 - **API Development:** Built and optimized REST APIs for high-traffic Rails applications using PostgreSQL and Redis.
 - **Payment Integration:** Integrated Stripe for secure and seamless payment processing across the platform.
- **UIMATIC Pvt. Ltd.** Mohali, Punjab
Associate Full Stack Developer – Full-Time *Dec 2021 – Apr 2023*
 - **Stuccco:** Built scalable Ruby on Rails applications serving multiple clients, improving feature delivery speed and system reliability using Ruby on Rails 5/6. Integrated multiple third-party APIs including GHL, HubSpot, and Smart Address.
 - **BMS Portal:** Led the development of the BMS Portal using Rails 7, improving internal workflow efficiency and enabling real-time data updates via Stimulus.js.
- **TecOrb Pvt. Ltd.** Noida, Uttar Pradesh
Ruby on Rails Trainee Intern *Jan 2021 – Apr 2021*
 - **Rails Fundamentals:** Worked with ActiveRecord ORM, migrations, associations, validations, and Rails best practices.
 - **Version Control:** Collaborated using Git on real-world development tasks.

PROJECTS

- **WalletCard** — <https://demo-v2.mywalletcard.com/>: Collaborative platform for employee safety and compliance records. Tech: Ruby on Rails, APIs, Database Synchronization.
- **Raise The Money** — <https://raisethemoney.com/>: Built a secure donation platform using Ruby on Rails and Stripe, enabling seamless payment processing and handling concurrent user transactions.
- **STUCCCO** — <https://www.stuccco.com/>: Developed an interior design platform using Ruby on Rails, integrating HubSpot and Smart Address APIs to streamline customer onboarding and project management.
- **BMS Portal** : Led the development of the BMS Portal, utilizing Rails 7 for backend services and Stimulus.js for the frontend.

CERTIFICATIONS

- | | |
|--|-----------------|
| • Learning the OWASP Top 10 — LinkedIn | Issued Feb 2026 |
| • Docker Mastery: with Kubernetes +Swarm — Bret Fisher, Docker Captain Program | Issued Feb 2026 |
| • Testing Ruby with Rspec — Udemy | Issued Jan 2026 |
| • Namaste React — NamasteDev.com | Issued Jan 2026 |
| • Grokking Modern System Design Interview — Educative | Issued Jan 2026 |
| • AWS Certified Cloud Practitioner — Amazon Web Services | Issued Dec 2025 |
| • Problem Solving (SQL, Web Development, Java) — Hacker Rank | |
| • Ansible automation devops by CodeKloud | Issued MAY 2025 |

KEY ACHIEVEMENTS

- Improved API response time by 30%
- Reduced AWS operational cost by 25%
- Built Rails 7 internal portal
- Integrated Stripe, HubSpot, GHL APIs

ADDITIONAL INFORMATION

- Actively contributing to open-source projects and continuously improving backend development skills.
- Regularly exploring modern Ruby on Rails practices, system design, and scalable application architecture.
